ABOUT ME

Frontend Developer specializing in React and JavaScript ES6, with a strong background in developing dynamic and responsive web applications. Experienced in Agile methodologies, collaborating with cross-functional teams to deliver high-quality products on time. Passionate about utilizing the latest technologies to enhance user experiences and drive innovation.

WORK EXPERIENCE

🏢 **RCG Global Services** – Philippines

Country: Philippines

Consultant III | AEM/React Developer

[11/07/2024]

- Designed and developed **React.js** components to enhance user interface performance, maintainability, and consistency across the application.
- Implemented responsive, accessible, and visually engaging user interfaces using modern **HTML5**, **CSS**, and **JavaScript (ES6)** best practices.
- Leveraged **Adobe Experience Manager (AEM)** to manage and deliver personalized, content-rich experiences within a component-based frontend architecture.
- Collaborated daily with a U.S.-based client and cross-functional Agile teams to plan, develop, and deliver high-quality frontend features in fast-paced development cycles.
- Supported multiple client websites by implementing new features and resolving bugs, ensuring consistent functionality and user experience across platforms.

🏢 **Accenture Inc.** – Philippines

Country: Philippines

Advanced App Engineering Senior Analyst

[06/2023 – 07/2024]

- Engineered dynamic and functional web pages by partnering closely with UI/UX designers to build scalable, reusable **React.js** components.
- Built responsive and cross-browser-compatible user interfaces using modern **HTML5**, **CSS**, and **JavaScript (ES6)** standards.
- Integrated and maintained web content using **Adobe Experience Manager (AEM)** to support personalized and modular site experiences.
- Embraced **Agile development principles** to accelerate feature delivery, improve collaboration, and ensure iterative product improvements.
- Collaborated with international clients and localization teams to implement multilingual support and manage website translations, ensuring a consistent global user experience.

🏢 **Jose B. Lingad Memorial General Hospital** – Philippines

Country: Philippines

Information System Analyst I

[04/2022 – 12/2022]

- Built and maintained user-friendly, responsive web applications using **Vue.js**, **HTML5**, **CSS**, and **Bootstrap** to create smooth and consistent experiences across different devices.
- Worked on backend development with **PHP**, **MySQL**, and **SQL Server**, making sure data was handled efficiently and the applications ran reliably.
- Provided ongoing support and maintenance for existing applications using **jQuery**, ensuring continued functionality and improving user experience.
- Led training sessions for users, helping them understand the applications and feel confident using the new tools to get the most out of them.

Administrative Assistant II (Data Controller II)

[01/2023 – 02/2023]

- Promoted from a job order (contract) role to a permanent position, taking on additional responsibilities while continuing to perform previous duties.

 **Department of Information and Communications Technology (DICT)** – Philippines

Country: Philippines

Project Development Officer III

[07/2021 – 04/2022]

- Developed a web application for managing ICT Academy students using **WordPress**, improving administrative efficiency and user accessibility.
- Designed graphic arts and visual materials to support departmental branding and communications using **Adobe Photoshop**.
- Pursued and studied **CCNA certification** to deepen knowledge in networking fundamentals and enhance technical skills.

 **Jose B. Lingad Memorial General Hospital** – Philippines

Country: Philippines

Administrative Assistant I

[05/2018 – 07/2021]

- Managed and organized patient records with accuracy, ensuring data was kept confidential and easily accessible for medical staff.
- Prepared, maintained, and updated various reports and official documentation to support administrative and clinical workflows.
- Assisted in general office operations including filing, inventory management, and correspondence to enhance overall team efficiency.
- Developed strong attention to detail, effective communication, and advanced data handling skills, which have been crucial in supporting software development tasks such as managing code quality, ensuring data integrity, implementing secure coding practices, and collaborating effectively with development teams.

 **Accenture** – Philippines

Country: Philippines

Associate Software Engineer

[05/2017 – 03/2018]

- Developed responsive and user-friendly web applications using **jQuery**, focusing on enhancing interactivity and improving user experience.
- Gained hands-on experience with **ionic** and **Swift** for mobile frontend development, building cross-platform and native mobile applications.

- Conducted thorough functional testing and quality assurance to identify and resolve bugs, ensuring high application reliability and user satisfaction.
- Worked closely with cross-functional teams, gaining practical experience in consuming **REST APIs** to fetch and display data within frontend applications aligned with client needs.
